On behalf of the OEA NS Board of Directors it is my pleasure to present our Annual Report for the calendar year 2016; marking nine years of Navigating Employers in Nova Scotia. The OEA NS Society was developed to address needs of employers in the areas of Workplace Health and Safety, Workers’ Compensation and intersecting employment legislation. Our Board’s Strategic direction continues to promote Advocacy, System Improvement and Accountability, Training, Education, and Return to Work to promote business success in Nova Scotia. Our ten Directors represent sectors and employers throughout the province and they bring an enormous wealth of business knowledge to OEA NS.

In 2016, the OEA NS Board subcommittees continued to focus on the initiatives of the 2014-2017 Strategic Plan, including negotiation of a new funding contract with WCB, compensation review and communications strategy. These enable OEA to remain a competitive employer in a growing and changing business environment as well as ensure employers in all sectors are aware of OEA NS programs and services. Our Communications Strategy will provide the necessary direction as we transition and communicate our Core and Core-Plus service and program delivery in 2017.

Our annual OEA Board survey considers leading and lagging indicators and provides the members with an objective review of our performance in leading OEA. Our score for 2016 was 4.3 out of five.

We experienced staff changes in 2016 with individuals leaving for new opportunities. Our Employer Advisors, completed the year with all employer file intake actively assisted, higher intake volumes compared to 2015, marked improvements in issue resolution and all delivered to the same high standards employers know and expect of OEA! The OEA Board sincerely thanks Mary Morris and Jeannette Combes for their commitment to OEA and our client employers. Their professional dedication to the mandate of OEA NS continues to build the trust of Nova Scotia employers.

In 2016 OEA hosted a working committee, gathering input from the employer community about the WCB’s draft policy regarding the compensability of pre-existing conditions. Fifty-nine employers signed endorsements of the working committee’s submission to the WCB.

OEA also applied to be an Intervenor in an appeal currently before the NS Court of Appeal regarding the disclosure of WCB documentation to the employer. We appreciate all of the employers who have provided invaluable feedback to both of these advocacy issues.

I would like to extend a very sincere thank you to my OEA Board colleagues and their employers for their volunteer time and extraordinary efforts to provide oversight and long term direction to the OEA NS Society. I very much appreciate my colleagues support to me, as President.

Thank you.

Message from the Executive Director

Work is Important. Business Success Makes it Possible.

I am pleased to present this Annual Report for the year ending 2016. It was a year of positive and anticipated change in our business operations, with a number of key projects completed development of a new funding agreement and contract with WCBNS. Our discussions with WCB resulted in a new contract beginning 2017 that will bring clarity of scope of practice and continued efforts to assist employers. During the year OEA said good bye to Angela Peckford and Eyoab Begashaw from staff roles, as well as Christine Carruthers from the OEA Board of Directors. We wish them all our very best!

Jeannette Combes joined OEA full time as Employer Advisor, bringing to OEA an experienced health care background in the Princess Mary Royal Airforce Nursing Service, Midwifery, Offshore, Public Health, Emergency Care, Intensive Coronary Care, Occupational Health and Manufacturing, industry sector combined with participation on professional practice and standards committees and professional board experience. Read more about Jeannette on our website at www.oeans.ca.

OEA introduced new training programs in 2016 addressing PTSD and healthy workplaces practices in the hiring of transgendered workers. Employers attending our June conference appreciated two insightful presentations by employers from Norman Countway, President of Sure Courier and William Costin, Owner, Costin’s Paving and Contracting Ltd. In November we held WCB/WCAT appeal training and were greatly assisted by McInnes Cooper, WCAT and Internal Appeals in this program delivery. We thank all of our guest speakers who provide training support to OEA throughout the year and in particular to the Labour and Employment Group of McInnes Cooper Law Firm.

Employers continued to identify system concerns and issues resulting in challenges to individual companies and the overall provincial economy. The concern regarding ongoing business viability from Workers’ Compensation premiums resulted in many referrals from member business associations to OEA and increased individual business inquiries. Our appreciation is extended to Tom Burt, Manager, WCB Assessments, for his assistance with many of these. The employer is limited in its ability to resolve matters that will create positive impact to their premiums however, employers want to be involved in all aspects of claim management and decisions. In 2016 we received a higher number of concerns expressed about the employer’s lack of notification of a PMI decision rendered, than in any other year to date. Return to work efforts were the single largest area of training and file work that OEA provided in 2016. The increasing average lost time rate, due to injuries, continues to be a major concern of all stakeholders as it directly impacts ongoing business viability. Real change must be made to the lost time rate in Nova Scotia. Injury claimants, with increasing subjective reports, are not returning to the workplace and remaining permanently out of the workforce, even in their 40’s and 50’s. Lifestyle issues permeate WCB claims and the employer, being held responsible for these costs creates business worry for the future. Increasingly, problem resolution requires OEA Advisors and employers to address complex employment issues interconnected to the WCB claim. The challenges are many and the work of OEA continues to provide programs and services focussed on Navigating Employers to Business Success!

Our new contract with WCB will provide clear business separation of the Core and Core Plus programs and services of OEA NS Society. We are excited about this new chapter! Thank you to employers and business associations for your trust and support of OEA. We look forward to navigating your business in the next year!

Sincerely Yours,
Mary Morris
Executive Director

Service Evaluation Results

At the conclusion of service with OEA, employers are asked to complete a Service Experience Survey. The survey provides performance feedback to assist in ensuring OEA’s Strategic Plan and system outcomes have been met. This year there was a 30% increase in employers returning these surveys. OEA issued 116 surveys in 2016, with a return rate of 63%. In 2015 OEA issued 221 surveys with a return rate of 33%. We thank employer clients for their time to complete the survey and provide comments.
